Currently in progress

FOCUS

AI-powered web solutions, automation, and practical digital products for businesses.

PROFILE

AI Solutions & Automation Developer focused on building modern websites, AI agents, chatbots, and business automation workflows. I use AI-assisted development to turn ideas into practical digital products while continuously strengthening my web development skills.

SELECTED PROJECTS

Personal Portfolio Website | *hassanautomates.vercel.app*

- Designed and deployed a personal portfolio showcasing AI, web, and automation projects.
- Built with a clean, responsive UI and live deployment on Vercel.

AI Background Removal Tool | *AI-powered web application*

- Built and deployed a modern image-processing tool with an intuitive user experience.
- Focused on fast workflows, clean UI, and practical AI-powered functionality.

AI Chatbot & Agent Solutions | *Business use cases*

- Designed AI-powered conversational experiences for customer support, FAQs, and lead assistance.

Business Automation Workflows | *AI + automation*

- Created workflow concepts that connect forms, business data, AI tools, notifications, and repetitive tasks.

Modern Web Projects | *Responsive websites*

- Built responsive interfaces using AI-assisted development with deployment and iterative UI/UX improvements.

WHAT I BRING

- Build practical websites and digital experiences with AI-assisted workflows.
- Translate repetitive business tasks into structured automation opportunities.
- Learn quickly, troubleshoot actively, and improve projects through iteration.

CAREER DIRECTION

Seeking a part-time or entry-level opportunity where I can contribute to real projects in web development, AI solutions, or business automation while growing into a stronger full-stack professional.
